# **SECTION 2: Hazards identification**

# 2.1. Classification of the substance or mixture

# Regulation (EC) No. 1272/2008

| Hazard categories:  |
|---|
| Skin corrosion/irritation: Skin Irrit. 2                    |
| Serious eye damage/eye irritation: Eye Dam. 1               |
| Respiratory or skin sensitisation: Skin Sens. 1             |
| Specific target organ toxicity - single exposure: STOT SE 3 |
| Hazardous to the aquatic environment: Aquatic Chronic 2     |
| Hazard Statements:  |
| Causes skin irritation.                                     |
| May cause an allergic skin reaction.                        |
| Causes serious eye damage.                                  |
| May cause respiratory irritation.                           |
| Toxic to aquatic life with long lasting effects.            |
|   |

# 2.2. Label elements

# Regulation (EC) No. 1272/2008

### Hazard components for labelling

- Isobornylacrylat 2-hydroxyethyl methacrylate
- acrylic acid, prop-2-enoic acid

### Signal word:

## Pictograms:

lenses, if

according to Regulation (EC) No 1907/2006

### Conloc UV 683

Print date: 30.03.2016

Product code: 740683\_1

#### Hazard statements

| H315                   | Causes skin irritation.   |
|------------------------|---|
| H317                   | May cause an allergic skin reaction.  |
| H318                   | Causes serious eye damage.  |
| H335                   | May cause respiratory irritation.   |
| H411                   | Toxic to aquatic life with long lasting effects.                            |
| Precautionary statemen | ts  |
| P261                   | Avoid breathing dust/fume/gas/mist/vapours/spray.                           |
| P280                   | Wear protective gloves/protective clothing/eye protection/face protection.  |
| P302+P352              | IF ON SKIN: Wash with plenty of water.                                      |
| P305+P351+P338         | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact |
|                        | present and easy to do. Continue rinsing.                                   |
| P310                   | Immediately call a POISON CENTER/doctor.                                    |
| D 405                  |   |

P405 Store locked up.

P501 Dispose of contents/container in accordance with local regulation.

# 2.3. Other hazards

Do not expose skin and above all eyes to direct or reflected UV light during curing. Should not be released into the environment.

#### **SECTION 3: Composition/information on ingredients**

### 3.2. Mixtures

### **Chemical characterization**

Mixture of substances listed below with nonhazardous additions.

#### Hazardous components

| CAS No     | Chemical name   |                                       |                      | Quantity |

Full text of H and EUH statements: see section 16.

# Further Information

For the full text of the H-Statements mentioned in this Section, see Section 16.

## **SECTION 4: First aid measures**

# 4.1. Description of first aid measures

according to Regulation (EC) No 1907/2006

# Conloc UV 683

Print date: 30.03.2016

Product code: 740683\_1

Page 3 of 10

#### **General information**

Take off all contaminated clothing immediately.

#### After inhalation

Move to fresh air in case of accidental inhalation of vapours. Consult physician if problems persist. If victim is at risk of losing consciousness, position and transport on their side.

#### After contact with skin

Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. If skin irritation persists, call a physician.

#### After contact with eyes

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

#### After ingestion

Consult a physician.

# 4.2. Most important symptoms and effects, both acute and delayed

No information available.

#### 4.3. Indication of any immediate medical attention and special treatment needed

No information available.

Treat symptomatically.

#### **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

#### Suitable extinguishing media

Dry powder, Foam, Carbon dioxide (CO2). Extinguishing materials should be selected according to the surrounding area.

### Unsuitable extinguishing media

High volume water jet

# 5.2. Special hazards arising from the substance or mixture

Heating or fire can release toxic gas. Fire may cause evolution of: nitrogen oxides (NOx), Carbon oxides

#### 5.3. Advice for firefighters

In the event of fire and/or explosion do not breathe fumes. In the event of fire, wear self-contained breathing apparatus.

#### **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Do not breath vapour. Wear personal protection equipment.

#### 6.2. Environmental precautions

Do not flush into surface water or sanitary sewer system. If the product contaminates rivers and lakes or drains inform respective authorities.

#### 6.3. Methods and material for containment and cleaning up

Prevent spreading over a wide area (e.g. by containment or oil barriers). Substantial quantities: Soak up with inert absorbent material. Small amounts: Wipe up with absorbent material (e.g. cloth, fleece). Provide adequate ventilation.

#### 6.4. Reference to other sections

See also section 7, 8, 13

#### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

according to Regulation (EC) No 1907/2006

# Conloc UV 683

Print date: 30.03.2016

Product code: 740683\_1

Page 4 of 10

### Advice on safe handling

Handle in accordance with good industrial hygiene and safety practice.

Avoid contact with skin and eyes. Provide sufficient air exchange and/or exhaust in work rooms. Keep away from direct sunlight.

# Advice on protection against fire and explosion

Keep away from heat.

#### 7.2. Conditions for safe storage, including any incompatibilities

#### Requirements for storage rooms and vessels

Keep tightly closed in a dry and cool place. Protect against light. Never return unused material to storage receptacle.

# Advice on storage compatibility

Not required

# 7.3. Specific end use(s)

No information available.

### **SECTION 8: Exposure controls/personal protection**

### 8.1. Control parameters

#### Additional advice on limit values

2-Hydroxyethylmethacrylat

MAK see chapter IIb

### 8.2. Exposure controls

#### Appropriate engineering controls

Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction.

Do not expose skin and above all eyes to direct or reflected UV light during curing.

#### Protective and hygiene measures

Handle in accordance with good industrial hygiene and safety practice.

Avoid contact with skin. Avoid contact with eyes. Do not breath vapour.

Wash hands when done working with material; at breaks, lunch, shift changes, etc. Take off immediately all contaminated clothing

When using, do not eat, drink or smoke. Keep away from food, drink and animal feedingstuffs.

#### Eye/face protection

Safety glasses with side-shields.

#### Hand protection

Protective gloves: Glove material Nitrile rubber (0,35 mm), butyl-rubber (0,5 mm) Break through time >= 8h. As the product is a mixture of several substances, the durability of the glove materials cannot be calculated in advance and has to be tested before use.

Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact).

Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

The choice of an appropriate glove does not only depend on its material but also on other quality features and is different from one producer to the other.

### Skin protection

Long sleeved clothing

#### **Respiratory protection**

Ensure adequate ventilation, especially in confined areas. In case of insufficient ventilation wear suitable respiratory equipment.

according to Regulation (EC) No 1907/2006

# Conloc UV 683

Print date: 30.03.2016

Product code: 740683\_1

Page 5 of 10

#### **Environmental exposure controls**

Do not allow material to contaminate ground water system.

# **SECTION 9: Physical and chemical properties**

# 9.1. Information on basic physical and chemical properties

| Physical state:  | liquid         |                                |             |
|--|----------------|--------------------------------|-------------|
| Colour:  | transparent    |                                |             |
| Odour:   | characteristic |                                |             |
|  |                |                                | Test method |
| pH-Value:  |                | not applicable                 |             |
| Changes in the physical state                          |                |                                |             |

| Initial boiling point and boiling range:               |                | not determined                 |             |
| Flash point:   |                | > 100 °C                       |             |
| Explosive properties<br>The product is: not Explosive. |                |                                |             |
| Lower explosion limits:                                |                | not determined                 |             |
| Upper explosion limits:                                |                | not determined                 |             |
| Density:   |                | approx. 1,05 g/cm <sup>3</sup> |             |
| Water solubility:                                      |                | insoluble                      |             |
| Solubility in other solvents<br>0 %                    |                |                                |             |
| Viscosity / dynamic:<br>(at 20 °C)                     |                | approx. 800 mPa·s              |             |
| Solvent content:                                       |                | 0 %                            |             |
| .2. Other information                                  |                |                                |             |
| The product is: not auto flammable                     |                |                                |             |

The product is: not auto-flammable

# **SECTION 10: Stability and reactivity**

# 10.2. Chemical stability

No decomposition if used as directed.

#### 10.3. Possibility of hazardous reactions

No dangerous reaction known under conditions of normal use.

# 10.4. Conditions to avoid

Exposure to light.

#### 10.5. Incompatible materials

Keep away from oxidising agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions.

### 10.6. Hazardous decomposition products

In case of fire hazardous decomposition products may be produced such as: Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), dense black smoke.

#### **SECTION 11: Toxicological information**

### 11.1. Information on toxicological effects

according to Regulation (EC) No 1907/2006

# Conloc UV 683

Print date: 30.03.2016

Product code: 740683\_1

Page 6 of 10

### Irritation and corrosivity

The product causes irritation of eyes, skin and mucous membranes.

#### Sensitising effects

May cause sensitisation by skin contact.

# STOT-single exposure

This information is not available.

# Severe effects after repeated or prolonged exposure

This information is not available.

# Carcinogenic/mutagenic/toxic effects for reproduction

This information is not available.

#### Aspiration hazard

This information is not available.

### Specific effects in experiment on an animal

This information is not available.

#### Practical experience

# **Observations relevant to classification**

This information is not available.

### **SECTION 12: Ecological information**

### 12.1. Toxicity

Do not empty into drains or the aquatic environment. Leakage of alredy small quantities into the soil hazardous to drinking water

Toxic to aquatic organisms. Toxic for Fish.

#### according to Regulation (EC) No 1907/2006

# Conloc UV 683

Print date: 30.03.2016

Product code: 740683\_1

This information is not available.

#### 12.5. Results of PBT and vPvB assessment

not applicable

#### 12.6. Other adverse effects

This information is not available.

# **SECTION 13: Disposal considerations**

# 13.1. Waste treatment methods

# Advice on disposal

080409

Dispose of as special waste in compliance with local and national regulations.

#### Waste disposal number of waste from residues/unused products

WASTES FROM THE MANUFACTURE, FORMULATION, SUPPLY AND USE (MFSU) OF COATINGS (PAINTS, VARNISHES AND VITREOUS ENAMELS), ADHESIVES, SEALANTS AND PRINTING INKS; wastes from MFSU of adhesives and sealants (including waterproofing products); waste adhesives and sealants containing organic solvents or other hazardous substances Classified as hazardous waste.

# Contaminated packaging

Dispose of waste according to applicable local, state, and federal regulations.
